Version    :

^com- ----------------------------------------------------------------

^com --- Some data where we learn the colors

black is a color
white is a color
green is a color
blue is a color

red is a color
pink is a color
brown is a color
yellow is a color
grey is a color

^com --- An exemple of interaction

the dog of paul is brown
^ext what is the color of the dog of paul^Sys brown

^com --- an exercize

the horse of christopher is black

^ext what is the color of the horse of christopher
^com ^expect : black

^com ---- now we learn sizes

tall is a size
big is a size
huge is a size

large is a size
small is a size
tiny is a size

^com --- An exercise NOTE - We did'nt give another exemple for the size !!

the horse of christopher is tall
^ext what is the size of the horse of christopher
^com ^expect : tall

the car of hector is big
the car of hector is red
the house of hector is pink
the house of hector is small
```

```
^ext what is the color of the car of hector
^com ^expect : red

^ext what is the size of the car of hector
^com ^expect : big

^ext what is the size of the house of hector
^com ^expect : small

^ext what is the color of the house of hector
^com ^expect : pink

^com --- end of lesson
```
